

INFUSION SERVICES

At Vital Care, we provide comprehensive primary and urgent care services alongside specialized treatments such as non-oncology biologic infusions and injectables. Our clinic is designed to support the community by ensuring access to high-quality healthcare services, including extended hours to accommodate your schedule.

- **Specialized Infusion Suites:** Each suite offers a comfortable reclining chair in a private setting.
- **Extended Availability:** We're open daily from 7 AM to Midnight, including weekends and holidays, to accommodate your schedule.
- **Welcoming External Referrals:** Patients referred by outside providers for infusion therapy are accepted.
- **Insurance and Payment:** Options include private insurance & self-pay.
- **Expert Care Team:**
 - Emergency medicine-trained nurses and ACLS-trained staff ensure high-quality care during your visit.
 - A pharmacist on staff reviews infusion plans, assists with lab monitoring, and ensures hypersensitivity protocols are in place. Basic on-site lab services are available through Quest Diagnostics for added convenience.

Please call to check if your infusion or biologic injectable is available.
